They are available in both traditional coffin or curved end shapes. They have solid ply bases and are finished with rope handles, wooden name plate, natural cotton lining, pillow and robe.

Please note that the Somerset is hand-made to order and can take up to a week to complete.

Other Environmentally Friendly Woven Coffins and Caskets

Cane £ 1,030.00

Cane is particularly environmentally friendly, as it grows by up to six metres a year in downgraded forests, in marginal soil or in areas where other land products cannot grow. It provides an income for some of the poorest people living in and around the rainforests. The Cane is available in either traditional coffin or curved end shape, has a solid ply base and is finished with rope handles, wooden name plate, natural cotton lining, pillow and robe.

Seagrass

£ 1,030.00

Seagrass is grown in paddy fields which are flooded with sea water at certain times of the year. It is highly renewable and comes from an environment where sustainability practices are employed. Once harvested, seagrass is dried and then spun into a strong yarn ready for weaving. The Seagrass has a solid ply base and is finished with rope handles, wooden name plate, natural cotton lining, pillow and robe.

Cocostick

£ 1,040.00

Cocostick coffins are made out of the stems from the leaves of the coconut palm, which are fast growing by-products of the coconut tree. The leaves are dried out and the stems separated, producing tiny sticks which are strung together, making a natural colour variation. The Cocostick coffin is only available in the traditional coffin shape, has a solid ply base and is finished with rope handles, wooden name plate, natural cotton lining, pillow and robe.

Bulrush & Willow

£ 940.00

The Bulrush & Willow is hand woven from willow, accented by natural bulrush, using traditional skills, in a gently curving teardrop shape. The lid has a plaited willow edge detail and is securely fastened with wooden toggles. The intergrated base is solid ply and there are six handles woven from natural rope and rush, a laminated bamboo nameplate and unbleached calico linings, pillow and robe.

Banana

£ 1,045.00

Banana coffins are made from the leaves of the banana plant, which are fast growing and freely available. The leaves are removed carefully and spun into long yarns which are woven round a natural tohiti frame, making them strong, lightweight and golden coloured in appearance. The Banana is available in either traditional coffin or curved end shape, has a solid ply base and is finished with rope handles, wooden name plate, natural cotton lining, pillow and robe.

Loom

£ 1,090.00

Loom is actually natural paper which is spun into long yarns and woven around a tohiti frame. The coffin has a light brown colour with cream coloured cane inserted into the design for contrast. The Loom is only available in the curved end shape, has a solid ply base and is finished with rope handles, wooden name plate, natural cotton lining, pillow and robe.

Bamboo

£ 1,030.00

This natural bamboo coffin has been meticulously hand-crafted, using fine strips of dried bamboo. The bamboo weave is interlaced to form an attractive mat that is then woven around a strong rattan frame. Bamboo is one of the fastest growing plants on earth and has been known to grow up to a metre a day, making it a highly sustainable material. The Bamboo is available in either the traditional or curved end shapes, has a solid ply base, engraved wooden nameplate and comes fitted with rope handles, a natural cotton lining, pillow and coversheet and a cotton robe.

Framed Bamboo

£ 1,005.00

As explained above, Bamboo is another ecologically sound material, as it grows very quickly. Once harvested, the plant grows back to its original size in just fifty-nine days. The Framed Bamboo is made from woven split bamboo panels mounted on a painted softwood frame. It is only available in the traditional coffin shape, has a solid softwood base, rope and wood handles, a matching painted wooden plaque with engraved nameplate, unbleached calico linings and robe.

Water Hyacinth

£ 1,145.00

Water hyacinth is an aquatic perennial plant that is one of the fastest growing species known to mankind. It is perniciously invasive and, uncontrolled, it quickly chokes waterways. It requires constant physical removal, which is very expensive. Harvesting water hyacinth for commercial purposes is an excellent means of environmental control. Strings of the dried fibres are spun together to form a braid ready for weaving. The dried stems are also used. The Water Hyacinth is available in both traditional coffin and half round casket shapes. It has a solid softwood base, rope and wood handles, a wooden plaque with engraved nameplate, unbleached calico linings and robe.

Swaledale Wool

Natural £ 1,195.00

Limestone £ 1,240.00

Working closely with the British Wool Marketing Board, the manufacturers of the Swaledale support British Farmers by purchasing their wool through the Quality Assurance Scheme. The Swaledale is made in Yorkshire using pure new wool, supported on a strong recycled cardboard frame. The base is waterproof and biodegradable. The interior is lined with organic cotton and edged with jute. The nameplate is also made of wool and is embroidered and the handles are made of cotton webbing. It is available in Natural (white) or Limestone (grey) colours.

LifeArt Range

LifeArt are a range of coffins which are extremely environmentally friendly. They are made out of Enviroboard, which is largely manufactured from timber off-cuts from coffin factories. Enviroboard is very strong and very light. In our opinion, it is a better, and slightly less expensive, option than cardboard. LifeArt coffins are reinforced with a small amount of solid softwood, so that the four solid wood handles can be fitted securely. When cremated, LifeArt coffins produce 87% less nitrous oxide emissions than MDF and 82% less than particle board, so much less greenhouse gasses. They also use 80% less trees to make than traditional coffins. To ensure that our LifeArt range is environmentally friendly, they are furnished with unbleached calico linings, pillow and robe.

Several different types are available:

Earthcare £ 480.00

In Natural, Elm or Rosewood colours.

Heritage £ 480.00

In a wood effect finish in Oak, Mahogany, Walnut, Maple, Jarrah, Flame Mahogany, Cherry, Birch or Ash.

Life's Canvas £ 599.00

In plain white, red, blue, purple or yellow, for you to decorate yourself, if you so desire.

LifeArt Collection £ 790.00

In a number of different designs, as shown in the catalogue.

Cardboard

Cardboard

£ 690.00

We normally steer clear of cardboard coffins as many are very flimsy and poorly designed, however, we are very impressed with this cardboard coffin. They are manufactured from 100% recycled paper and, due to their honeycomb-style Beeboard construction, they are very strong. They come with cotton linings and rope or cotton handles. They are available in brown or white. The same coffin is used in our Picture Coffins Range on page 12.

Picture Coffins Range

Picture coffins can be produced using more or less any design, the options are endless. You can choose from a gallery of designs or create your own, be it artistic or on a particular theme. Designs can be inspired by sport, the countryside, music, flowers, transport, hobbies, events, cities, religion, pets, wildlife, holidays, buildings, food, drink, films, television programmes, anything. They come in four different materials, cardboard, foil veneer, MDF and solid softwood. Please also note the options for printed interiors shown at the end of this section.
